### COMMERCIAL AFFAIRS.

MONEY MARKET.

MONDAY, April 19-6 P. M.

The market opened pretty well this morning for Monday, and a stormy, disagreeable day at that. Reading Railroad took the lead among the fancies; and before the close, an advance of 1 per cent was realized. Norwich and Worcester advanced ¼ per cent; Harlem. ½; Eric Railroad. ¼; Delaware and Hudson, ¾, since last sales; Eric Bonds, 1859, 14; Eric, 1871, 14; Eric, 1862, 16; New Jersey Zinc. 14. This stock is gradually leaving the mar-ket, and going into strong hands for permanent investment. The bulk of the daily purchases is made by parties who are interested in the company, and look upon it as a property the value of which cannot be estimated. At the second board, to-day, the market was quite buoyant, and the transactions unusually large. Zine Company went up ¾ per cent; Canton Company, ¾; Reading Rail-road, ¾; Eric Railroad, ¾; Harlem, ¾; Norwich and Worcester, %. A small lot of Transit stock sold at 43 yer cent. cash. Holders are firm, and offer very ittle stock at current quotations. A small lot of Shoenix Mining Company stock sold this afternoon, 1:13 per cent, cash. This is a handsome advance in the previous sale, and shows a rapid improvesent in public opinion relative to the merits of this commny, and its prospects. The price named above is really othing for the stock, if one half that is reported of its resources is true. The most active fancy in the street. to-day was Reading Railroad, and the improvement in prices as great as in any other on the list. This seems the more extraordinary, when we take into consideration the fact that there is not the slightest basis for the rise and that it is purely speculative. The demand at the first board was exceedingly active. This extraordinary call for stock we understand was occasioned by a move ment in Philadelphia, to complete the corner which has so long been approaching the culminating point. It certainly looks as though it had reached its climax. Most of the floating stock of this company has been placed on the books at Philadelphia and the bulls, thinking they had the bears in a tight place, notified them to deliver. This of course created an active demand for stock and the impression is, that the shorts have been pretty well cleared out. It is true they have been compelled to pay high prices; but before the lapse of many weeks they will find the stock plenty enough at rates considerably below the enow current. The bulls have all the stock, and it will be a question with them by and by, what can they do with it? Without heavy shorts, prices cannot be sustained. It may, therefore, be put down as a fixed fact that Reading Railroad stock has touched its maximum. A leading man in the management of this company visited this city a few days since. and marshalled his forces for active operations, but his position was not so impregnable as he supposed. It appears to us that some measure should be adopted

by the stockholders or by the Legislature, to prevent those directly connected with the management of our incorporated companies from connecting themselves with any combination for the purpose of speculating in the stock. There can be no justification for the officers of any company engaging in the gambling operations of the longs and the shorts of Wall street; and it is time those who have for some time past appeared so prominently in these speculations should be more generally known by the stockholders whose interests they have undertaker We shall be glad when all these fancy stocks get settled down upon some solid basis-when all these extensive fluctuations cease, and they are left to the natu rat changes of the market. It will be a good thing for these interested as permanent holders, when Reading Railroad stock esases to be a football for speculaters. Under the present regime it has been merely a machine, which has worked the ruin of thousands, while those who have controlled the movements of the machinery have realized fortunes out of their misguided constituents. It has been reported that no reduction would be made this season, in the rates of charges for transporting coal, probably for the purpose of aiding the inflation in the stock. Notwithstanding this, it is well known among the coal dealers, that a reduction in prices is in contemplation, and they are holding back coal in consequence. In the event of a contest commencing between the railroad and canal, we may look for results similar to those realized before, under similar circumstances. The last weekly report of the anthracite coal trade, stated that the aggregate brought down by the Reading Railroad this season, was 430,336 tons, against 313,204 tons. This is wrong-it should have read, 430,336 tons this season, against 513.204 tons to the same date last year, showing a deficiency this season of 83.181 tons.

The receipts at the office of the Assistant Treasurer

of this port, to-day, amounted to \$53,000; payments. \$2 476 66-balance, \$3,524,416 51. The Mechanics' and Traders' Bank has declared a semi-

annual dividend of 6 per cent; the West Chester County

Bank a dividend of 4 per cent. The moderate amount of business transacted in this and other seaport cities, this year, is rather a favorable feature, as it gives all classes an opportunity to cuperate themselves, and strengthen their p any future expansion. These lulls have a favorable effect upon trade. Consumption generally goes on year after year, without those finetuations which so frequently apear in the movements of commerce; and whatever paus there may be one season in demand from consumers, requires a corresponding increase in supply another, to fill up the vacuum. A dull, inactive season is not, therefore such an unfortunate state of things as many think, but, on the contrary, should be regarded as a healthy reaction sure to be attended with most profitable results. For more than three years all classes have rushed headlong into the most extravagant speculations. Credits have been most enormously expanded, both public and private, We have carried on for several years the most extraordinary system of internal improvements ever known in any We have progressed in all things too rapidly, and but for the reaction which has recently been realized, we should, perhaps, before this, have been in the midst of a revulsion. About twelve months since there were decided indications of an explosion in financial and commercial circles. Several very heavy failures occurred, and for a time the most serious apprehensions were entertained. A more cautious policy was adopted, and the effect has been beneficial. The internal trade of the country is in a sound and prosperous condition, and it is likely to continue so, if not forced beyond judicious limits. The moderate trade transacted thus far this season, gives the mercantile classes an opportunity to concentrate their capital and make it more available For a time there probably will be an accumulation of idle papital, which guaranties reduced rates of interest and temporary speculations in stocks., which are limited in their operation, and have no effect, favorable or unfavorable, upon the legitimate movements of commerce. The banks, in periods of activity in trade, employ a large per cent of their means in stock speculations, in temporary loans upon hypothecations of securities, which can be made available at the shortest notice, and have to give way to a legitimate demand for mo-ney from those engaged in trade. This in a ure accounts for the large amount of idle capital at this moment seeking employment, and the facilitates furnished for the inflation of fancy stocks. The opening of inland navigation may give a greater impetus to trade than has yet been realized this season, and give activity to a portion of the unemployed capital of our banking institutions. If not, we must wait patiently for another season, with the consolation that no

actual loss has been experienced by the delay. The Baltimore and Ohio Railroad Company have estab-

lished a transfer office in this city. The Milwaukie and Watertown Plank road, have declared dividends amounting to ten per cent, since January last. Plank roads, in every section of the country, have proved most productive, and the stock is smong the best

investments of the day. The alteration recently made in the mortgage law of Massachussetts, is opening a new and popular channel for short and permanent investments. For several years past, it has been quite difficult to borrow money on res estate security, in consequence of the three years right of redemption. Under the law, as it now stands, a mortgage can pass a perfect title to an estate in about thirty days. This must have a favorable effect on this kind of preperty, and give a great impetus to improvements in

The Suffolk Bank's loss by Brewer and Rand, will be \$214,515 25, notwithstanding which the bank will pay a dividend of five per cent for the past six months, and have a surplus left of their reserved fund of \$140,000. The sureties of the defaulters were for only \$5,000

The Wheeling Gazette says several of the contractors on the Ealtimore and Ohio Railroad were in that city on Wednesday, from along the line of the road. They all agree in saying that the work is progressing rapidly, and that there can be no doubt of their finishing up in time for running the cars by the first of January next. The same paper states that the entire stock of the Union line of steamboats, from Wheeling to Louisville, to commence running with the opening of the Baltimore and Ohio Railroad, has been so taken as to combine the best integests at both points and intermediate posts

The Lehigh coal trade has commenced. The Delaware and Hudson Canal will not be ready for at least two weeks. We have heard nothing lately about the Morris

The Miners' Journal says:-From this period to the 1st of December next, will be only 32 weeks. To send to market the same quantity of coal that was sent last year frem Schuylkill county, to that period, would require a weekly shipment of 53,000 tons, in round numbers. To increase the quantity 200,000 tons, from this region, would require a weekly shipment of 60,000 tons per week, without the loss of a single day throughout the scason. A week's stoppage would require the weekly shipment to be increased 62,000 tons, to make up that quantity. Every week that it falls short will require a corresponding increase.

The Morse line of magnetic telegraph between Washington and New York, has declared a quarterly dividend

These companies present their claims for support upon four kinds of titles :-

1st. Direct leases from Col. Fremont of located and unlocated mines. 2d. Leases from Dr. Hoffman, as Col. Fremont's agent,

requiring, as is admitted, confirmation from Col. F., to ensure their validity.

3d. Leases from Mr. Sargent, the presumed purchaser from Col. Fremont of the Mariposa Territory.

Lastly, from other parties, in other parts of the country, in no way connected with Col. Fremont and his

Mariposa El Dorado. The companies entirely dependent on Col. Fremont are the Anglo California. Sierra Nevada, and Rocky Bar. Those holding direct leases from Col. Fremont, are the Agua Fria and Nouveau Monde, as possessors of Baldwin's mine. The holders of Hoffman's leases, confirmed by Col. Fremont, are Nouveau Monde, (not located.) Mariposa Quartz, (not located.) The solitary holder of an unconfirmed Hoffman lease, is the Golden Mountain, and the three waiters on the title of Mr. Sargent, are the Ave Maria, West and East Mariposa. The other companies are independent of titles to land, as they only propose to crush and reduce the ore of other mines. Parties in Bng. land interested in these mines have no doubts of the vali

dity of Col. Fremont's titles. In relation to the title of Mr. Sargent to the Mariposa, a great deal has been said, but nothing appears to be defi-nitely understood. The title set up was that Mr. Sargent obtained in April. 1850, one of Col. Fremont's usual leases for seven years, of 600 feet square, upon the usual condition of being located within a year. Of this lease, assuming it to be good, the company claim an extension to twenty-one years, on a deed which purports to be a grant from Mr. Flandin, another assumed agent of Col. Fremont's, dated July 7, 1851, of "my estate of Mariposa, covering ten leagues of ground, being about 45,000 acressituated in Mariposa county." This lease is signed by Mr. Flandin, with Col. Benton as one of its attesting wit-nesses, and certified by a Mr. French, whom Daniel Webster again certifies to be a Justice of the Peace for the district in which he assumes to act. One of the terms of this grant is, that until ratified by Col. Fremont it is worthless. The company holding this lease will probably make new arrangements with Col. Fremont, and se-cure the claims they now assume. The aggregate capital of the companies recently formed in Great Britain for mining purposes in California, is upwards of eight mil-

lions of dollars. Agua Fria Company was held in London. The object was to receive a statement from Mr. Wright, of San Francisco, relative to the prospects of the property, and also as to the title of the lease. The claims of Colonel Fremont to the Mariposa district were freely discussed, and it was elicited that he placed the whole of the questions arising out of his leases in the hands of the legal advisers of all the parties interested. With regard to the proceedings of the Agua Fria Company, it was stated that the directors had endeavored to exercise great economy in expenditure, and that they now possess £50,000 invested in consols and other available securities. They had already started a portion of their staff to California, and the remainder would shortly proceed with the recommendation of the securities. They had already the staff to California, and the remainder would shortly proceed with the recommendation of the securities. They had already the staff to California, and the remainder would shortly proceed with the recommendation of the securities. They had already the securities of th mainder would shortly proceed with the necessary machinery. In the course of the discussion some severe questions were put respecting sales of shares, &c., but these were answered in a manner that met approval.

The Carson's Creek Company have a mine which was discovered in 1850, which is said to exceed in richness of ore anything known in California. The company have heretofore chiefly directed their efforts to mining and bringing to the surface the rude ore, waiting until arrangements could be made in Europe for procuring machinery for crushing and extracting the metal. This mine is situated in the county of Celaveras, near Carson's Creek, which runs in the Stanislaus river. The property consists of three locations—the mountain location on the crest of the lofty elay state range, above Carson's Creek. where the mine is working, consisting of a ledge of auriferous quarts rock, covering an area of 1,762 feet in length, by a breadth varying from five to twenty-five feet, in which veins of gold are visible to the naked eye; a looation on Stanislaus river, which is highly important, affording an unfailing supply of water, and a location on Careon's Creek, valuable as a rite for the erection of ma-chinery for mining purposes. It has been proved in this mine that ore from the deepest shaft yet sunk-183 feet-is richer than that near the surface, and that in addition to the distinct veins, gold is diffused throughout the whole mass of the quartz rock. These statements are certainly very flattering, and it is said they are supported by evidence difficult to discredit. The directors of the company in England are men of wealth and credit.

The Rocky Bar Company is wholly American, established by the diggers themselves in California, in July, in 1860. Its claims are at Rocky Bar, on the middle fork of the American river, and in the grass valley in the Nevada country. One thousand shares of this company have been put upon the London market for sale, at the price of £25 per share.

The Sierra Nevada Company have, it is stated, pur chased the freehold in an important and valuable gold mine, situated in the centre of the auriferous mining district in the county of Mariposa. The mine is said to be of greater extent than the valuable leasehold mines of Agua Fris. West Mariposa, Ave Maria, &c.; the length of vein leased to each of which is two hundred yards only. The accounts given of this mine are so confused and meagre, that its shares have been unsaleable in the London Stock Exchange, except at a discount.

It is now about two years since the first attempt was made to form English companies to work the mines o California with English capital, skill and machinery, and in that short period thirteen projects, with capital amounting to more than eight millions of dollars, have been presented to the public with varied success. The disputes about the Freemont, Hoffman, and Sargent leases, acted for a time most prejudicially on the public mind: but confidence was soon re-established, and the capital of each new company as it was presented rapidly filled up. The excitement still runs high, and we have no doubt many new companies will be formed before any of the old companies realize anything from their operations. The public mind is rife for this species of speculation, and we must look for explosions and all sorts of disappointment. The small sum fixed for shares in these companies, has no doubt, drawn hundreds of thousands of people in them. The par value of shares in all but two of these companies is one pound sterling, a sum within the means of thousands, who but for this would not have been connected with the movement. Companies for mining in Australia have been formed in England, with an aggregate capital of ten millions of dollars. New companies are

being formed daily and we have no doubt there will be a great many bubbles among the number. Our latest accounts from Loudon report an inactive market for chares, without variation in prices.

CITY TRADE REPORT.

Monday. April 19—6 P. M.

The incossent rain and wind throughout the day have interrupted business materially.

Asies varied little—30 bbis. bringing \$5 a \$5 6½ for pots. and \$6 25 a \$6 31½ for pearls.

Breadstupps.—Flour ruled dull, the transactions not exceeding 3,800 bbis. State. Southern. and Western, at former rates; fancy Genesee at \$4 87½ a \$5 12½; fancy Obio at \$5 a \$5 18½; extra Obio at \$5 12½ a \$5 50, and extra Genesee at \$4 87½ a \$5 12½; fancy Obio at \$5 a \$5 18½; extra Obio at \$5 12½ a \$5 50, and extra Genesee at \$4 87½ a \$5 50½. The previous figures. Wheat seemed lower. 900 bushels white Southern only realizing \$1 a \$1 01; while corn remained firm the sales reaching 14,000 bushels white Southern at 65c. a 66c., with do and Jersey yellow at 66c. a 66½. Nothing new occurred in rye, barley, or oats.

Cotton.—The sales were 1.300 bales to-day, the market presenting no change in prices since the arrival of the steamer Arctic.

Cotter.—We noticed sales of 200 bags Java, at 10¼ a 11½c, and 200 Rio, at 9 a 9½c.—Market steady.

Farights.—The inclemency of the weather checked engagements. For Liverpool. a few hundred bales of cotton were shipped at about 3-16d a 7-322.; 9,000 bushels of cotton were shipped at about 3-16d a 7-322.; 9,000 bushels of cotton were shipped at about 3-16d. a 7-322.; 9,000 bushels of cotton were shipped at about 3-16d. a 7-322.; 9,000 bushels of cotton were shipped at about 3-16d. a 7-322.; 9,000 bushels of cotton were shipped at about 3-16d. a 7-322.; 9,000 bushels of cotton were shipped at about 3-16d. a 7-322.; 9,000 bushels of cotton were shipped at about 3-16d. a 7-322.; 9,000 bushels of cotton were shipped at about 3-16d. a 7-322.; 9,000 bushels of cotton were shipped at about 3-16d. a 7-322.; 9,000 bushels of cotton were shipped at about 3-16d. a 7-322.; 9,000 bushels of cotton were shipped at about 3-16d. a 7-322.; 9,000 bushels of cotton were shipped at about 3-16d. a 7-322.; 9,000 bushels of cotton were shipped at about 3-16d. a 7-322.; 9,000 bushels of

at 5. 50; 230 ctuster 40. under \$1.10; and 20 casks curinnts, at 5c.

Hav.—A retail inquiry existed for river, at 60 a 62)\(\frac{1}{2}\)c.

per 100 lbs.

Iaox.—We heard of only 60 tons Scotch pig being purchased at \$21, usual terms. Demand light.

Lime.—Common Rockland was freely offered at 90c.,
but no sales were effected.

Molassis.—A parcel of 150 hhds. Porto Rico brought
30c. Market unaltered.

Molassis.—A parcet of 100 time.

30c. Market unaltered.

Naval Storks.—Excepting the disposal of 100 bbls. spirite turpentine at 48 a 50c., and 700 bbls. North county rosin at \$1 20. nothing was done.

Oils.—Sales have been made of 6,600 gallons linseed, at 58 a 60c., closing at the outside price, which shows an advance.

advance.

Provisions moved to the extent of 250 bbls. new prime and mess pork, at \$17 a \$19; 300 do. prime lard, at 9½ a 10c. per lb; and 180 do. prime and mess beef at \$6 a \$7 25. and \$10 a \$13—the former rates.

Rick.—Some 250 tierces fair to prime were disposed of at \$3 25 a \$3 50 per 100 lbs

Secars.—There have been 100,000 Havana bought at \$20 a \$25, usual time. SEGARS.—There have been 100,000 Havana bought at \$25, usual time.

So a \$25, usual time.

Source.—Sales of 100 bbls. Prison whiskey were made at 223/c., with 80 casks Scotch ale at \$1 62%, per gallon,

customary terms.
Sucaus were extremely quiet, only one lot of 50 hhds.
Cuba having been sold at 4%c. per lb.
Tallow.—Prime was scarce, and in demand at 8c. a 8%c. per lb.

The following statement was handed to us by Mr. L. Cadwell, of the firm of L. Cadwell & Co., inspectors of beef and pork in South Brooklyn. We give it, to enable the public to strike an average to suit themselves :- New York, April 17, 1852.

New York, April 17, 1852.

TO THE EDITOR OF THE NEW YORK HERALD.

DEAR Sir.—In your paper of the 15th instant, you published a letter purporting to have been written by a very responsible house at Cincinnati, expressing the belief that there had been more hogs cut throughout the West this year, than has been generally supposed; and without going into any details, or showing any statistics as to number cut, he endeavors to skow that there is no deficiency, from the fact that he has discovered some errors, made by the Cincinnati price current, on the three great western rivers, where the largest proportion of the hogs have been packed, which I apprehend will not alarm holders, or deter those from buying that wish to do so.

to do so.

Below, I hand you statistics as to the number of
Below, I hand you statistics as to the number of nogs packed throughout the whole west, as near correct as it probably can be made. The Wabash, Il-linois and Mississippi rivers, were taken by myself, and most of the balance by the editor of the *Price* Current, which will show (and is not doubted by many) a very large falling off in numbers packed in 1852 from 1851:—

RECAPITULATION. 21.000 1.662 187

1.398.846 263.341 Deficiency in numbers .... Deficiency in numbers 233 341

There has been on the Wabash and Illinois rivers, this over last year, a gain in the weight of hogs of about 25,000. At the balance of the packing points it is generally believed not to amount to much.

At Chicago and Milwaukie there has been an estimated excess packed, this, over last year, 6 about 10,000 hogs. There has been on the Illinois and Mississippi rivers full 25 per cent more out from the same number of hogs into bacon sides, this, over

last year, which, with a large proportion of the joints, is required for the increased Western and Southern demand. These facts, in connection that we had 85,000 bbls. less pork in all the Atlantic cities, the first of January this year, than we had the same time last year, may possibly show our Cincinnati friend what has become of the product.

L. CADWHLL.

# ADVERTISEMENTS RENEWED EVERY DAY.

Part Of A HOUSE TO LET, IN HOYT STREET. Brooklyn, second door north from Atlantic street, to a small, genteel family of grown persons, two rooms, with pantries, grates, and marble mantels, and one small rooms on third floor. Privilege of collar and washing room. Apply on the premises, from 2 till 5 P. M. PARIS DRESSES AND LADIES' FASHIONS IN GENE-ral.—Although dancing may perhaps have been carried on with less spirit this winter than hitherto, the ladies of the aristocratic circles have not been behind in displaying these toilets, from the warerooms of their protege, the establish-ment of Miss Fauvet, 4 rue Ménars. At the Tuileries, the Frinces V. was remarkable by a dress of watered silk, color Rose antique de Provins, trimmed with a magnificent Foint d'Alencon lace; the Mise de C. vore a splendid dress of sky-blue tulle, covered with white blonde applications; at the Hotel de Ville, the residence of the Minister of War, and in the private parties of the aristocratic faubourgs, Mine de St. A. was remarked for a handsome rose colored full dress, trimmed with ribbons and gauffree, and a host of other ladies of distinction, is proof that their preference is fully justified by the new patterns. the freshness of the ornaments, and especially the graceful forms of the dresses from their privi-leged house. DARIS DRESSES AND LADIES FASHIONS IN GENE-PHYSICIAN'S OFFICE WANTED, IN A CENTRAL Place.

ROOMS TO LET.—A VERY SMALL, STRICTLY PRIvate family, occupying the whole of a new, modern

L YON'S MAGNETIC POWDER, 424 BROADWAY.

YON'S MAGNETIC POWDER, 424 BROADWAY.

Rata-rata-rata,
In every joist and beam,
Mice-mice-mice,
Wherever I go I see 'em.
Cats-cats-cats,
I've tried them all in vain;
But not a rat or a mouse the less
Can I see, my many attempts to bless,
For upon my word I verily guess,
Not a single one has been slaim.
Dogs I've tried, and poisenous stuff,
Powders, arsonic, and snuff—
Hold on my friend, you've said eneugh.
Cats and dogs have failed 'tis true,
Poison, snuff, and powders too;
Cages and traps of steel and iron;
But "don't give up"—just go to LYON.
His specific will relieve you.
Only 25 cents a box or flask. E. LYON, 424 Broadway.

TS IT POSSIBLE THAT ANY ONE WILL HARROR

TO LET—WITH POSSESSION ON OR ABOUT THE
